+footcare

New Anti-tingle Formulation

For soothing relief of tingling in the body extremities...

- **with soothing relief of polidocanol**
- **2% urea for active hydration**

neuropad[®]

+footcare Anti-tingle foaming mousse

Developed by experts, **neuropad[®] +footcare ant-tingle formulation** with polidocanol, soothes and helps to relieve tingling sensations in the body extremities. Contains urea and natural oils with active ingredients that moisturise the skin, enhance suppleness and promote elasticity. Maintaining the natural pH (5.5) value of the skin sustains the essential acid protective skin mantle.

- contains Polidocanol to help relieve the tingling feeling or numbness in the body extremities
- provides hydration and protective moisturise retention to the skin with 2% urea
- natural chestnut extract, almond, evening primrose and wheat germ oils to promote elasticity and enhance suppleness of the skin.
- Eurodermic pH of 5.5 helping to maintain the natural pH (5.5) of the skin, which helps to sustain the essential acid protective skin mantle
- clinically and dermatologically tested
- absorbs quickly and easily into the skin, without leaving a greasy film
- free perfumes, artificial colouring and preservatives, neutral smell
- free from paraffin oil, non-comedogenic, does not clog pores
- economical, a small dollop - the size of a walnut - is all you need for coverage of both feet, lower leg, hands or forearm
- handy 75 ml container, enough for 90 applications, about 6 weeks with twice daily application
