## +footcare

### *The Innovation in Foot Care*

*For active hydration and soothing care of the skin with...*

- **5% urea for dry skin**
- **10 % urea for very dry skin**

### neuropad<sup>®</sup>

#### +footcare foaming mousse:

**pH 5.5**

Developed by experts, **neuropad<sup>®</sup> +footcare** provides harmonised and protective care to maintain the delicate moisture balance of the skin. **neuropad<sup>®</sup> +footcare** is available in concentrations of 5% urea for dry skin, and 10% urea for very dry skin. Urea benefits the skin through active introduction of moisture to dry skin, as well as acting as a moisture retaining agent enhancing the natural barrier function of the skin. Maintaining the natural pH (5.5) value of the skin sustains the essential acid protective skin mantle.

- provides active hydration and protective moisturise retention to the skin
- natural evening primrose oil promotes smoothness, elasticity and suppleness of the skin
- contains natural oils and ingredients with active ingredients that moisturise the skin, enhance flexibility and the capacity for regeneration
- Eurodermic pH of 5.5 helping to maintain the natural pH (5.5) of the skin, which helps to sustain the essential acid protective mantle
- clinically and dermatologically tested
- absorbs quickly and easily into the skin, without leaving a greasy film
- free perfumes, artificial colouring and preservatives, neutral smell
- free from paraffin oil, non-comedogenic, does not clog pores
- economical, a small dollop - the size of a walnut - is all you need for both feet
- handy 75 ml container, enough for 90 applications, about 6 weeks with twice daily application
